ABHISHEK C D

DATA SCIENTIST

CAREER OBJECTIVE

As a dedicated and dynamic professional, my career objective is to merge my passion for education with my burgeoning expertise in data science, thereby establishing a meaningful and impactful dual role as a Data Scientist cum Tutor. With a strong foundation in the art of teaching, cultivated through two years of experience in the field of education, I am eager to pivot into the thrilling world of data science.

PROJECTS

August 2022
Online Library Management

The Online Library Management System is a web-based platform designed to streamline and modernize the operations of a library. It provides a user-friendly interface for both library staff and patrons, enabling efficient catalog management, user account management, and borrowing/returning of library materials.

February 2023
Family Banking
The Family Banking System is a web-based application that enables families or groups of individuals to organize and manage their finances collaboratively. It provides a centralized platform for family members to track income, expenses, savings, investments, and financial goals. This project promotes transparency, accountability, and effective financial planning within the family unit.
